

Welcome to Fifth Grade!

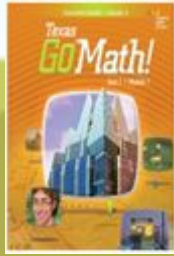

Sr Nuzhat Z Ullah  
5th Grade math & Science

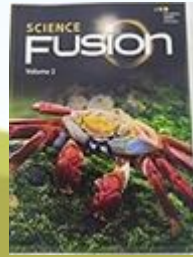

My name is Nuzhat Z Ullah. I teach Math & Science to 5th Grade. I am homeroom teacher for 5B. Alhamdulillah! This is my 5th year of teaching in ISI.

I received my degree from Newman University. I raised four children. I am aware of the importance of an Islamic schools and Islamic education for our children. I believe that both parents and teachers play a major role in child's education. Both need to support students to gain knowledge and to build their character so they can become great role models and community builders.
